

## Enroll MacOS in Intune/MDM

When we increase the security with multi-factor authentication (MFA) for login, you have to enroll your JU Mac in order to except it from the MFA policy when using Office365 applications.

- Preparations:

**N.B!** Before you start the enrollment, you will first have to set up MFA according to the manual *MFA – English – (version/date)*, that you can find here: <https://ju.se> -> IT Helpdesk -> FAQ/Manuals -> search for “MFA”.

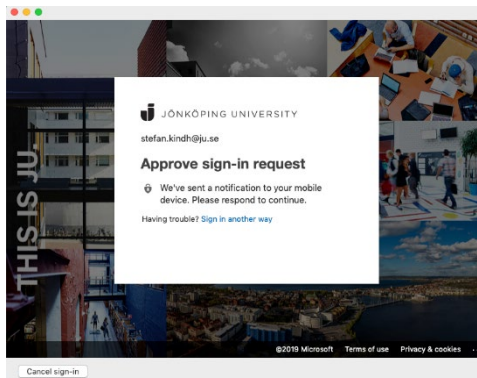

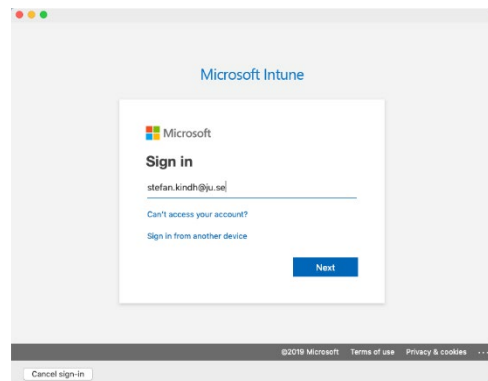

## Enroll the device

- Open **Applications** and start the application **Company Portal**.

- Log in with your JU email address and password.  
*Since multi-factor authentication (MFA) is enabled on the account, you will have to confirm the login on your registered device.*

## JÖNKÖPING UNIVERSITY

- Select **Continue** to begin the enrollment process.

**Set up Jönköping University access**

Let's set up your device to access your email, devices, Wi-Fi, and apps for work.

You will need to:

- Get your device managed**  
Jönköping University requires you to install a Management Profile to secure your device
- Update device settings**  
Jönköping University might need you to take action, like setting a passcode.

[Learn more](#)

- Read the information about what the JU administrators can and cannot see when the device is enrolled. Click on **Continue**.

**What can Jönköping University see?**

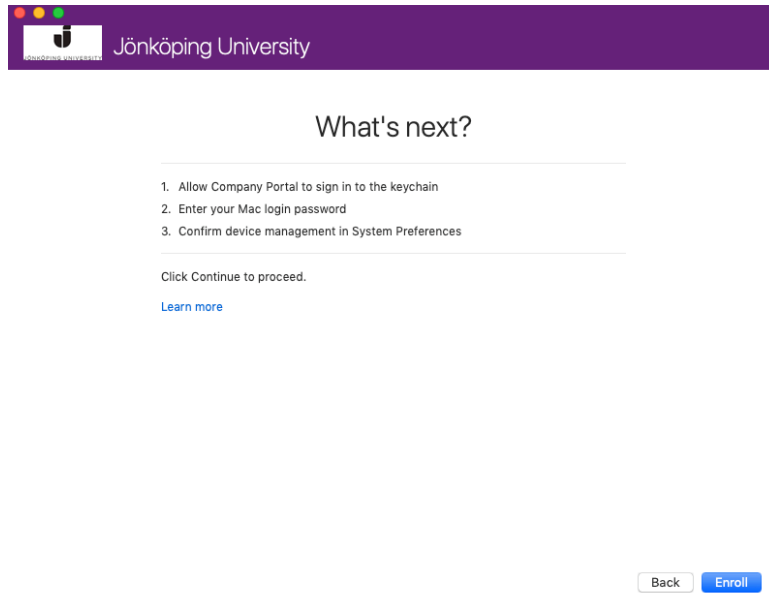

- Jönköping University can't:**
  - View browsing history on this device
  - Open your emails, contacts, or calendar
  - Access your passwords
  - Review your documents
- Jönköping University can:**
  - View the model, serial number, and operating system
  - See the names of apps you've installed
  - Identify your device by name
  - Reset lost or stolen device to factory settings

## JÖNKÖPING UNIVERSITY

- The next screen will show information about what will happen during the installation. Click on **Continue**.

- Enter the password for your Mac.

## JÖNKÖPING UNIVERSITY

- You will have to confirm the *Management Profile* in order to continue. Click on **Open System Preferences**.

**Confirm device management**

You need to approve the installation of a Management Profile in System Preferences. This will let you access company resources from your Mac.

[Open System Preferences](#)

1. In "System Preferences", select "Profiles".
2. In the left-hand sidebar, select "Management Profile".
3. Click "Approve..." to allow Jönköping University to manage work settings on your Mac.
4. Click "Approve" when the popup appears.
5. Come back to the Company Portal, then click "Continue".

⚠ Skipping this step will prevent you from accessing all company resources.

[Continue](#)

- Confirm the *Management Profile* by clicking on **Approve**. You can close this window when you're done.

**Profiles**

Search

**Device Profiles**

- Management Profile  
4 settings

**Management Profile**  
Jonkoping University **Verified**

⚠ Functionality may be limited until this profile is approved.

**Description** Install this profile to get access to your company apps

**Signed** IOSProfileSigning.manage.microsoft.com

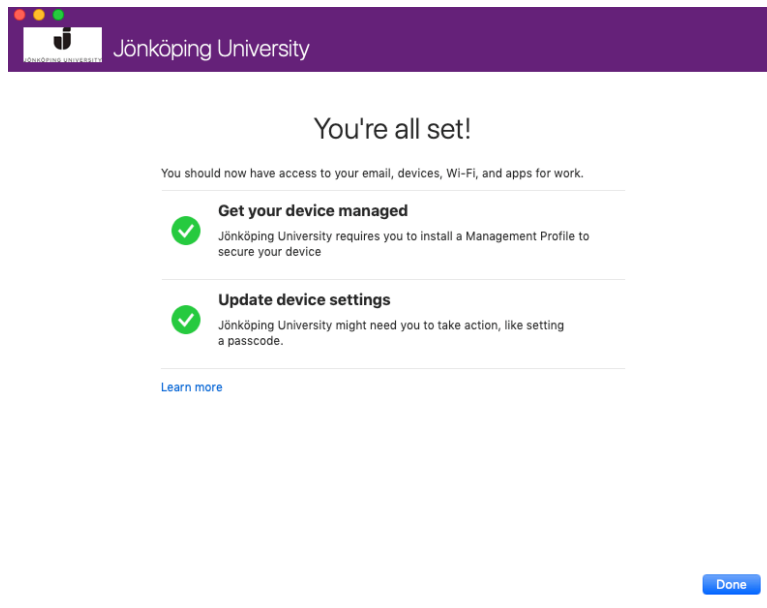

**Installed** 15 Mar 2019 at 10:35

**Rights** Erase all data on this computer  
Add or remove configuration profiles  
Add or remove provisioning profiles  
Lock screen  
Change settings

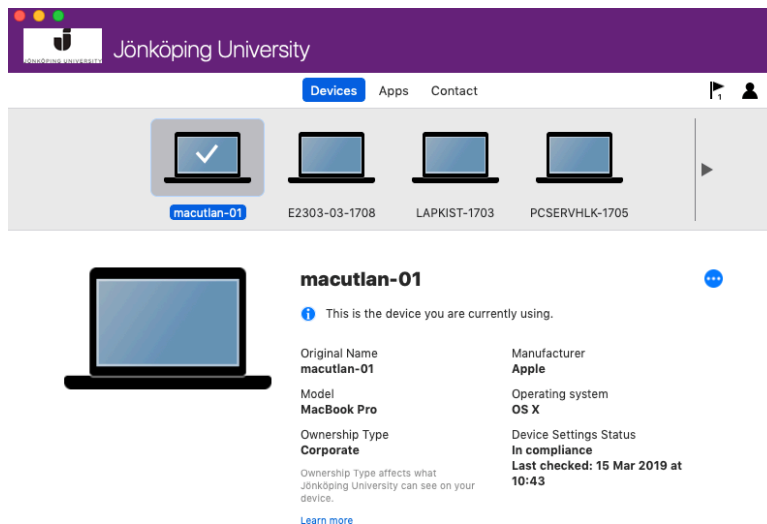

## JÖNKÖPING UNIVERSITY

- After a while the device is enrolled and ready.

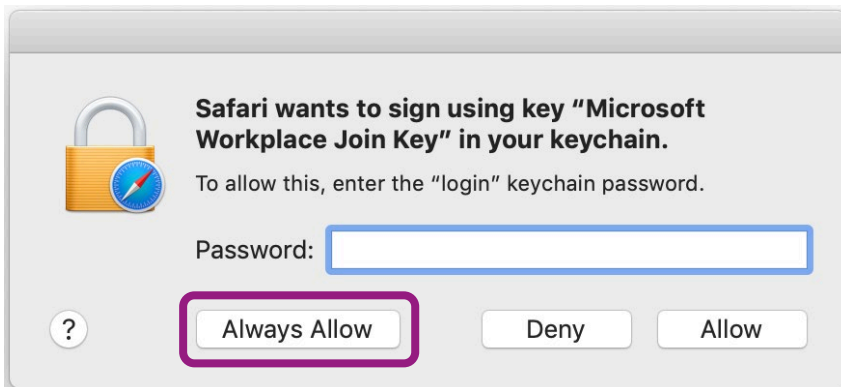

- The Mac will now show under *Devices* in the **Company Portal**.

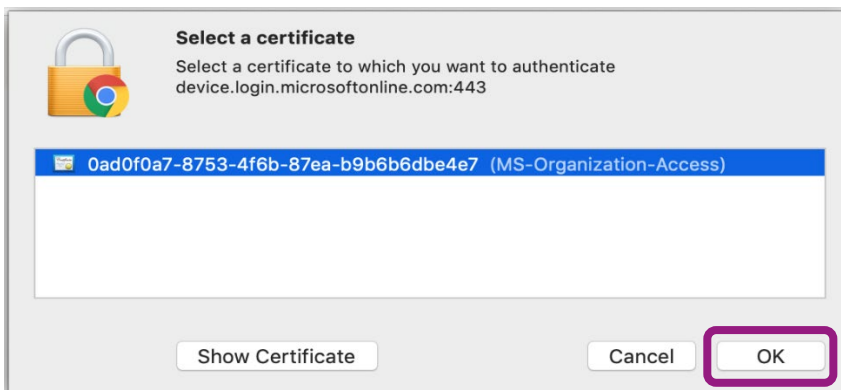

JÖNKÖPING UNIVERSITY

- Open *Safari*, go to <https://office.com> and log in with you JU email address and password to finish the enrollment. Enter the password for your Mac and click on **Always Allow** when the following dialog box is showing.

- For *Google Chrome*: Go to <https://office.com> and log in with you JU email address and password and click on **OK** when the following dialog box is showing.

- Enter the password for your Mac and click on **Always Allow**.
